### Program Description and Objectives

The goals of the NHERI REU summer program include:

- Providing research experiences for undergraduate students
- Providing career exposure within the NHERI fields
- Providing mentorship with an experienced engineer/researcher

### Site Events

Each REU student will be assigned to a NHERI site. You are expected to follow all rules at each of your sites. Faculty mentors and site managers will provide feedback on your performance. If you have any questions, please ask.

### REU Meetings

You are expected to participate in all NHERI REU research and career development meetings. If there is an extenuating circumstance, please send an email as soon as you are aware of the situation to [robin.nelson@utsa.edu](mailto:robin.nelson@utsa.edu).

### Readings and Instructional Materials:

IEEE Conference Template

*How to Write a Research Journal Article in Engineering & Science*

Journal articles that address your topic

Other scholarly sources as necessary

### Expectations:

NHERI expects you to act and respond professionally in your interactions with others and in completing your assignments and deliverables. Failure to do so may result in loss of pay and/or dismissal from the program.
